

Subject: Invitation for SA Climate Ready Meeting

Dear (First Name)-

I am hosting a community meeting to discuss how San Antonio is addressing climate change. SA Climate Ready will look at issues of importance to the entire community, including transportation, air and water quality, and energy, and help make our city better prepared to face expected climate impacts.

The reason I am hosting this meeting is to give community members like us an opportunity to have our voices heard. We need to be part of this process. Please join us to share your insight, thoughts and ideas on a SA Climate Ready future and enjoy the good company!
